Our profound experience in the ever-changing realm of technology has been aiding our clients to focus on managing their businesses whilst we plan, implement, optimize and maintain Their IT solutions.

- **BRIEF ABOUT OUR COMPANY BUSINESS PROPOSAL:**

Dial2Web is the leading IT service provider extending expertise in delivering solutions in different or almost all technology concerning sectors such as IT Training, IT Services and Business Consulting & Coaching. We take pride to introduce ourselves as the most promising and outcome-driven upcoming company acknowledged as a pioneer in IT & Non-IT Education. We hold specialization in the sectors of Hardware, Networking, Security Systems, Ethical Hacking and Digital Marketing Training Institute in Gurgaon since 2021. Founded as a digital marketing startup in 2018, we are now a well-established company with over 10+ premium clients across the country. To serve you better, we are associating Channel Partners across the nation. Join us and grow with us.

- **SCOPE OF ONLINE INDUSTRY & DIGITAL MARKETING**

Before we understand the scope of digital marketing in India, let us first understand this industry. Digital marketing is a marketing method to promote products online. In simple terms, we can say that we are promoting products to customers using the internet. Many concepts of traditional marketing apply to digital marketing. In every era, marketing modes has evolved in the criteria of preference and habits of customers. If you go back to the age of Radio, you can go back to times when customers used Radio which lead to radio advertising and marketing. Next, we got the boom of televisions; it is one of the widely used devices globally that allowed the companies to reach a mass audience with TV ads. Even today TV advertising is one of the most used advertising strategies for companies. Since the boom of the Internet, more customers have relied on the Internet, which gave birth to a new era of marketing called Internet marketing, which is now called Digital Marketing.
